Complete Course Syllabus

DURATION	SESSIONS	START DATE	FOCUS
4 Weeks	12 Zoom Meetings	Jun 3, 2026	Trading & Market Analysis

ABOUT THE PROGRAM

This 4-week mentorship is designed to take you from zero to a structured, rule-based approach to trading the forex market. Every session builds on the last — from reading raw price action and identifying market structure, through to building a personal trading plan you can execute consistently. Sessions run Tuesday, Thursday, and Saturday via Zoom.

COURSE SCHEDULE

01 Foundation Week

Jun 3 – Jun 7, 2026

TUE	SESSION 01	60 min Zoom
Jun 3	Market Structure Intro The foundation of everything — understand how price actually moves. — Higher Highs, Higher Lows, Lower Highs, Lower Lows defined — Uptrend vs downtrend vs consolidation — Break of Structure (BOS) and Change of Character (CHoCH) — Impulse moves vs retracements — Why higher timeframe structure overrides lower timeframe	
THU	SESSION 02	60 min Zoom
Jun 5	Price Action Basics Candlesticks, support & resistance, and how institutions leave footprints. — Reading candlestick patterns and wicks — Identifying strong support and resistance zones — Confluence — when structure and S/R align	

SAT	SESSION 03	90–120 min Zoom
Jun 7	Deep Dive & Live Chart Review Extended session — real chart walkthroughs and live Q&A.; — Identifying structure on live charts across multiple pairs — Common beginner mistakes and how to avoid them — Interactive Q&A; — ask anything from Week 1	

02

Strategy Week

Jun 10 – Jun 14, 2026

TUE	SESSION 04	60 min Zoom
Jun 10	Trend Analysis How to identify market direction with confidence before every trade. — Multi-timeframe trend alignment (4H direction → 15M entry) — Drawing swing highs and lows correctly — Recognising trend continuation vs reversal signals	

THU	SESSION 05	60 min Zoom
Jun 12	Entry & Exit Strategies Risk-reward thinking and disciplined stop loss placement. — Minimum 1:2 RR — why it changes everything — Structure-based stop loss (never emotional SL) — Taking profit at previous highs/lows and liquidity targets	

SAT	SESSION 06	90–120 min Zoom
Jun 14	Breakdown & Trade Review Extended session — real setups from the week broken down live. — Mentor-led walkthrough of valid and invalid setups — Homework review — student chart analysis presented — Building a trade log habit from day one	

03

Psychology & Technicals

Jun 17 – Jun 21, 2026

TUE	SESSION 07	60 min Zoom
Jun 17	Trading Psychology The part most traders skip — and why it decides everything. — Cognitive biases that destroy accounts (FOMO, revenge trading) — Building emotional discipline and pre-session routines — How to handle losing streaks without breaking your rules	

THU	SESSION 08	60 min Zoom
Jun 19	Technical Indicators RSI, MACD and moving averages — as confirmation, not signals. — RSI divergence as a structural confirmation tool — Moving averages for trend bias — not entries — Why indicators follow price, not the other way around	

SAT	SESSION 09	90–120 min Zoom
Jun 21	Live Market Analysis Extended session — mentor-led breakdown of current market conditions. — Live analysis of EURUSD, GBPUSD, XAUUSD — Identifying setups in real time with no indicators — Student participation — call the trade before the mentor does	

04 Execution & Wrap-Up

Jun 24 – Jun 28, 2026

TUE	SESSION 10	60 min Zoom
Jun 24	Strategy Building Create a complete personal trading plan you will actually follow. — Trading style selection — scalping vs day trading vs swing — Building strict entry conditions and a trade checklist — Risk rules: 1% per trade, max 3 trades/day, stop after 2 losses	

THU	SESSION 11	60 min Zoom
Jun 26	Backtesting & Review Test your strategy on historical data before risking a cent. — How to replay markets candle-by-candle in TradingView — Recording results: pair, date, RR, win/loss, mistakes — Why 50% win rate with 1:3 RR beats 90% win rate at 1:1	

SAT	SESSION 12	90–120 min Zoom
Jun 28	Final Review & Next Steps Extended wrap-up — independent analysis, goals, and the road ahead. — Student presents: trading plan, checklist, risk model, best setups — Mentor assessment and honest feedback on progress — Long-term goals: demo consistency, funded account preparation, journaling	

RULES & EXPECTATIONS

01

Be on time

Join the Zoom call at least 2 minutes before start. Sessions begin promptly.

02

Attend all 12 sessions

Each session builds on the last. Notify the mentor 24 hrs in advance if you must miss one.

03

Camera on

Cameras encouraged. It keeps engagement high and helps mentors gauge understanding.

04

No talking over the mentor

Mute when not speaking. Drop questions in chat — addressed during Q&A.;

05

Respect all participants

No judgment, no mockery. Everyone is at a different level. All questions are valid.

06

No sharing of session content

All materials and recordings are private. Do not redistribute to people outside the group.

07

Come prepared

Review previous session notes before each new one. Have homework ready to discuss.

08

Have your trading platform open

TradingView or your broker platform must be open during sessions for live follow-along.

09

Practice between sessions

Use a demo account every day. Consistency outside sessions matters more than anything inside them.

10

No live trading pressure

Focus on learning and demo. Risk real capital only when consistently profitable on demo.

YOUR MENTORS

PDB

Prince Debrah Bessah Sam

LEAD MENTOR · QAI

A seasoned forex trader with live market experience across major and minor pairs. Prince specialises in reading raw price action and understanding institutional order flow — teaching students to trade what the market is actually doing, not what indicators claim.

SMC · Order Flow · S&R; · Zone Trading · Fibonacci · Price Action · Risk Management

IAQ

Ivan Afari Quarm

CO-MENTOR · QAI

Ivan brings a technical and systematic approach, focusing on structured strategies students can replicate consistently. His strength is breaking down complex concepts into simple, executable frameworks — from confluence setups to disciplined journaling habits.

SMC · Technical Analysis · Confluence · Fibonacci · MACD/RSI · Psychology · Backtesting
